

## Academic Resilience: A “What Works” Showcase

**March 25 – March 26, 2021**

**11:00am – 5:00 pm (Eastern)**

This webinar highlights current work of ARC members promoting academic resilience throughout our institutions of higher education, in teaching and advising, student affairs, and health/wellness initiatives.

Attendees will have the opportunity to explore a wide range of inspiring and effective initiatives, meet leading thinkers and practitioners, and engage with their community of peers.

The format of the event is designed to provide **a broad overview and sampling** of student success initiatives, rather than a deep dive into specific programs or issues. Participants are warmly invited to follow up with one another after the conference for further exploration and consultation.

Non-ARC individuals may register for General Admission: \$225.00

ARC Members may register at no cost.
